New business

1. Rails on the steps is wobbly (Bath house side).
2. Pool also needs a additional rail next to the already existing rail for extra support.

There have many reports of people stumbling on the steps, & with only 1 rail there is nothing to keep from falling.

The top step is also causing a lot of these falls also, It has a very steep slant forward, & the movement of the water throws you off balance & with no 2nd. Rail down you go. There have been a number of complaints filed, & some not filed, but witnesses have seen a number of children, & adults almost fall.

Meeting adjourned at 11:58 am
Next meeting scheduled for December 2nd 2021.
